CAREER OBJECTIVE

Aspiring Java Backend Developer with a Master of Computer Applications (MCA) and strong fundamentals in Java, OOPs, Data Structures & Algorithms, DBMS, and Operating Systems. Hands-on experience building full-stack applications using Spring Boot, Spring MVC, and Hibernate (JPA). Seeking an entry-level Backend Developer role to apply core Java and problem-solving skills in building efficient, scalable software solutions.

EDUCATION

Master of Computer Application | OIST Bhopal | 2024 - 2026

Strong foundation in Java, Spring Boot, MySQL, DBMS, Operating Systems, Data Structures, and Full Stack Development.

Bachelor of Computer Application | ACMT Multai | 2021 - 2024

Foundational knowledge of programming, databases, and web development.

EXPERIENCE

Data Analytics Intern | Bluestock Fintech (May 2026 – Present)

- Built an end-to-end ETL pipeline to process mutual fund data using Python, Pandas, and SQLite
- Performed advanced risk analytics including Value at Risk (VaR), Conditional VaR (CVaR), and rolling Sharpe Ratio calculations
- Developed a 4-page interactive Power BI dashboard covering fund performance, investor analytics, and SIP trends
- Built a fund recommendation engine based on risk-adjusted return analysis

Python Development Trainee | QSkill (April 2026 – May 2026)

- Worked on Python-based mini projects using Pandas, NumPy, and TextBlob
- Practiced data analysis and automation tasks using Python libraries
- Improved problem-solving and debugging skills through hands-on exercises

TECHNICAL SKILLS

Languages: Java, SQL, Python (Basics), HTML5, CSS3 Backend: Spring Boot, Spring MVC, Hibernate (JPA), Maven

Database: MySQL

Core CS: OOPs, Collection Framework, Multithreading (Basics), Exception Handling, JDBC, DBMS, Operating Systems, Data Structures and Algorithms

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Postman

Soft Skills: Communication, Teamwork, Leadership, Public Speaking, Problem Solving, Time Management

PROJECTS

Smart Retail Inventory & Billing Management System

Spring Boot | Spring MVC | Hibernate (JPA) | Thymeleaf | MySQL | Maven

- Built a full-stack retail management system using layered MVC architecture (Controller–Service–Repository)
- Implemented transactional billing logic using @Transactional to ensure atomic stock deduction and bill generation
- Designed relational schema with One-to-Many entity mapping (Bill → BillItem) using Hibernate/JPA
- Built product and billing modules with real-time stock tracking and automatic inventory reduction on sale

Face Recognition Based Attendance System

Python | OpenCV | scikit-learn (KNN) | Streamlit

- Built real-time face detection using OpenCV Haar Cascade classifier
- Trained a K-Nearest Neighbors (KNN) classifier using scikit-learn for face recognition
- Implemented CSV-based attendance logging with duplicate-entry prevention
- Built a live auto-refreshing dashboard using Streamlit for attendance monitoring

ACHIEVEMENTS / CERTIFICATIONS :

- Java Programming Certification (KnowledgeGate) – Scored 98%
- Solved 100+ Data Structures & Algorithms problems on LeetCode
- Participated in Data Extraction Engineer Hackathon (Relu Consultancy)
- Presented a research paper at IEEE Conference on Artificial Intelligence & Machine Learning (CODE-2K26)
- Oracle Certified Foundations Associate – AI (OCI 2025)

SOFT SKILLS

- Problem Solving • Communication • Leadership • Public Speaking • Teamwork • Time Management
